

<div>Important Notes: 1. Schools reserve the discretion to make changes. 2. Students are allowed to take a maximum of two University GE courses per term (Term1, Term2). Also, GFH and GFN cannot be taken together in the same semester. Students cannot take the GEF courses in the first term of the first year. Students may refer to the Requirements of General Education for more detailed requirements of GE courses; 3. For courses offered by HSS, if a course is taught by more than one teacher, students can only choose the lecture and tutorial taught by the same teacher. 4. Students can enquire the "Course Description" by clicking "Browse Course Catalog" in "Curriculum Management" under SIS. 5. According to the General Education Study Scheme, students can only take up to 6 units of GEW courses as Free Electives. 6. Terminologies: Co-Listing: In special cases where there is a genuine need, two similar but not identical courses, respectively at UG and PG levels, can share the same learning activities but differ in other aspects such as assessment. The resulting credits of co-listing courses (two similar but not identical courses respectively at Ug and Pg levels) are not transferable between the two courses, as the two groups of students are given genuinely different assignments or tasks as assessments. Students who would like to apply for course and/or unit exemption after entering the Graduate School of CUHK(SZ), should apply for taking postgraduate courses. Double-coding: Double coded course carrying alternate code is a single course that is offered under two course codes with identical course content, assessment scheme and grading. Students may register and earn credit for only one of the codes under a double-coded course.</div>
