

Important Notes for Course Registration:

1. Schools reserve the discretion to make changes.

2. Enrolment Restriction on GE Courses:

1). Students will be allowed to enroll into two GE courses during course registration of Term 1 and Term 2. Also, students cannot take GFH/GFN in the first term of the first year. GFH and GFN cannot be taken together in the same Term.

2). According to the General Education Study Scheme, students can only take up to 6 units of GEW courses as Free Electives.

a. If students have taken two GEW courses (including CEC1000 or CEC2000 declared as GEW1001 or GEW2001) previously, they cannot declare any units of CE course(s) as free electives or register for additional GEW courses. Registry will promptly drop any additional GEW course(s) for such students.

b. If students have not taken any GEW courses or have taken fewer than 6 units, once they register for a GEW course (except CEC1000 or CEC2000), the units will be automatically counted as Free Electives.

3. For courses offered by HSS, if a course is taught by more than one teacher, students can only choose the lecture and tutorial taught by the same teacher.

4. Students can enquire the "Course Description" by clicking "Browse Course Catalog" in "Curriculum Management" under SIS.

Terminologies Explanation:

Co-Listing: In special cases where there is a genuine need, two similar but not identical courses, respectively at UG and PG levels, can share the same learning activities but differ in other aspects such as assessment. The resulting credits are not transferable between the two courses.

Double-coding: Double coded course carrying alternate code is a single course that is offered under two course codes with identical course content, assessment scheme and grading. Students may register and earn credit for only one of the codes under a double-coded course.

Co-requisite: A formal course is required to be taken simultaneously with another. If the student has already taken one of the co-requisite courses, it is permissible to enroll in the other one during the course registration period.

Pre-requisite: A prerequisite course must be completed or had enrolled in before registering for a certain course. For example, if course A is a prerequisite for course B, students must complete or had enrolled in course A before enrolling in course B.

Exclusion: Exclusion means that the two courses are mutually exclusive. If course A and course B are exclusive, then you can select only one of them.

INDAN: Students from Shatin campus of IDA double major programme.

INDAZ: Students from Shenzhen campus of IDA double major programme.

Department	Course Code	Course Title	Unit	Instructor(s)	Language of Instruction	Quota	Activity Counts	Prerequisite	Corequisite	Exclusion	Target Student	Reserved Quota	Co-listed Course	Remark
