MATH 128a: Homework #2

Instructor: F. Weber

Due by: **Wednesday, September 17, 2025, 11:59pm**

Problem 1: Problems from textbook Section 1.2

Solve problems 1a, 2d(1h), 3b, 6a(5a), 12ab(10ab), 19abc(15abc), 20a (16a) from Section 1.2 of the textbook.
If the problem has a different number in edition 9 of the textbook, it is in parentheses.
For problem 20a: write the result in the form $d.ddddddddd + 2^{-dd}$, where d is a decimal digit, to avoid a ridiculously long answer.
