ECO3121 TUT WEEK 1

BASIC INFORMATION

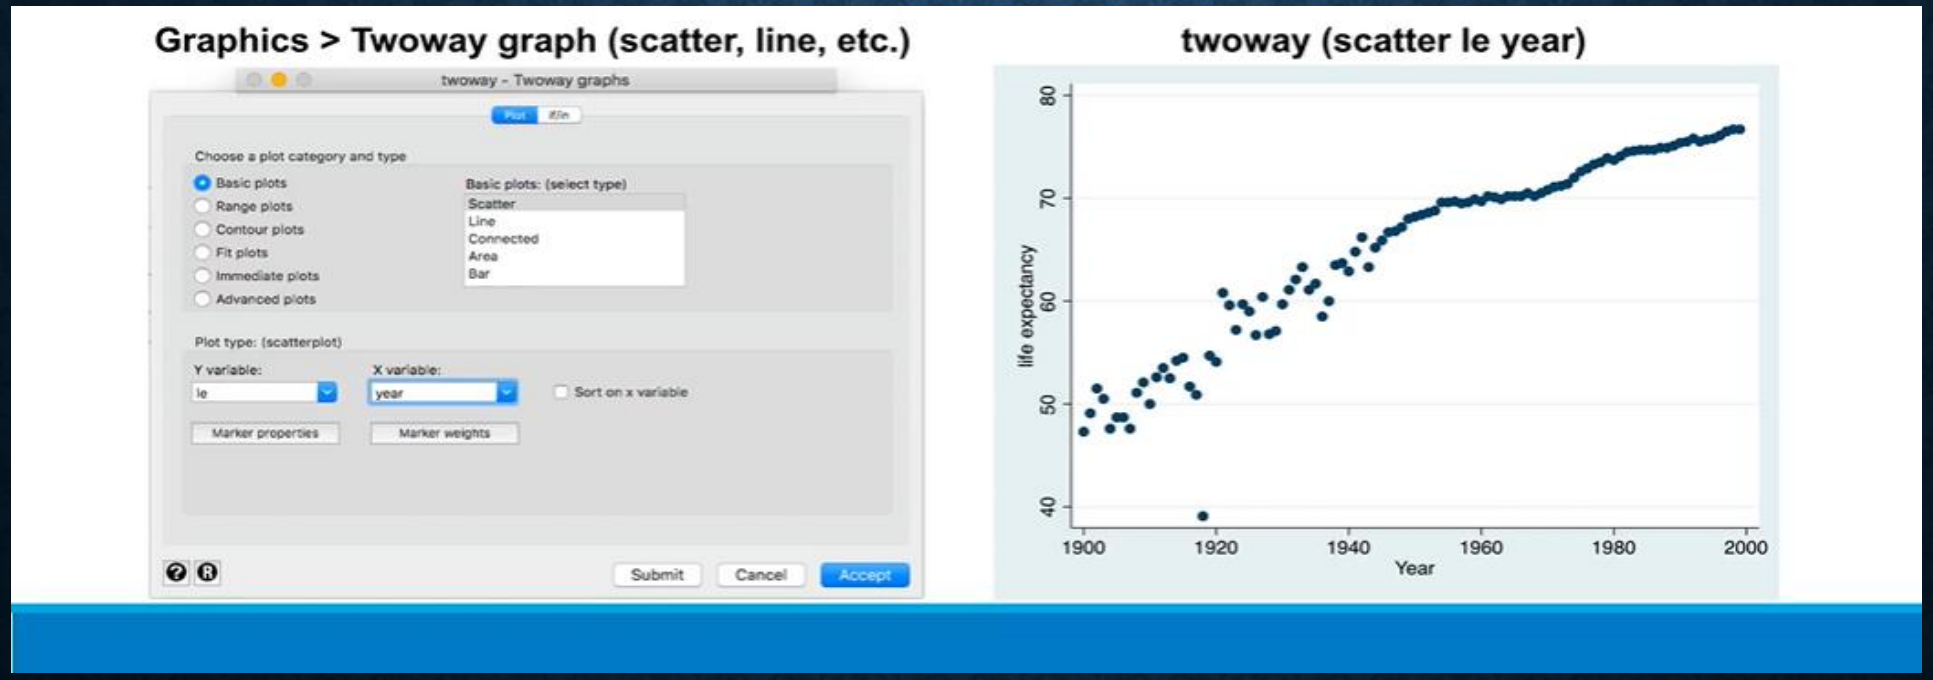

- **Contact email**: zhuangyizhe@cuhk.edu.cn (Yizhe.Zhuang)
  120090015@link.cuhk.edu.cn （ZiJing.Chen）
  119030085@link.cuhk.edu.cn (Yichen.Tao)
- **Office hour:** Tuesday 9:30 - 10:30 in ZhiRen building room 321 (Yizhe.Zhuang)
  Thursday:9:30 - 10:30 in Old Library 103 (ZiJing.Chen)
  Monday: 20:00 - 21:00 in Old Library 103 (Yichen.Tao)
- **Tutorial:** Friday 19:00-19:50 ChengDao building room 103 (Yizhe.Zhuang)
  Friday 20:00-20:50 ChengDao building room 103 (Yizhe.Zhuang)
  Wednesday: 19:00-19:50 ChengDao building room 103 (Yichen.Tao)
  Wednesday: 20:00-20:50 ChengDao building room 103 (ZiJing.Chen)

INTRODUCTION TO STATA

- Stata is a powerful statistical software that enables users to *analyze, manage, and produce graphical visualizations of data*. It is primarily used by researchers in the fields of economics, biomedicine, and political science to examine data patterns. It has both *a command line and graphical user interface* making the use of the software more intuitive.

SOME ADVANTAGES OF STATA

- **It has both a command line and graphical user interface**

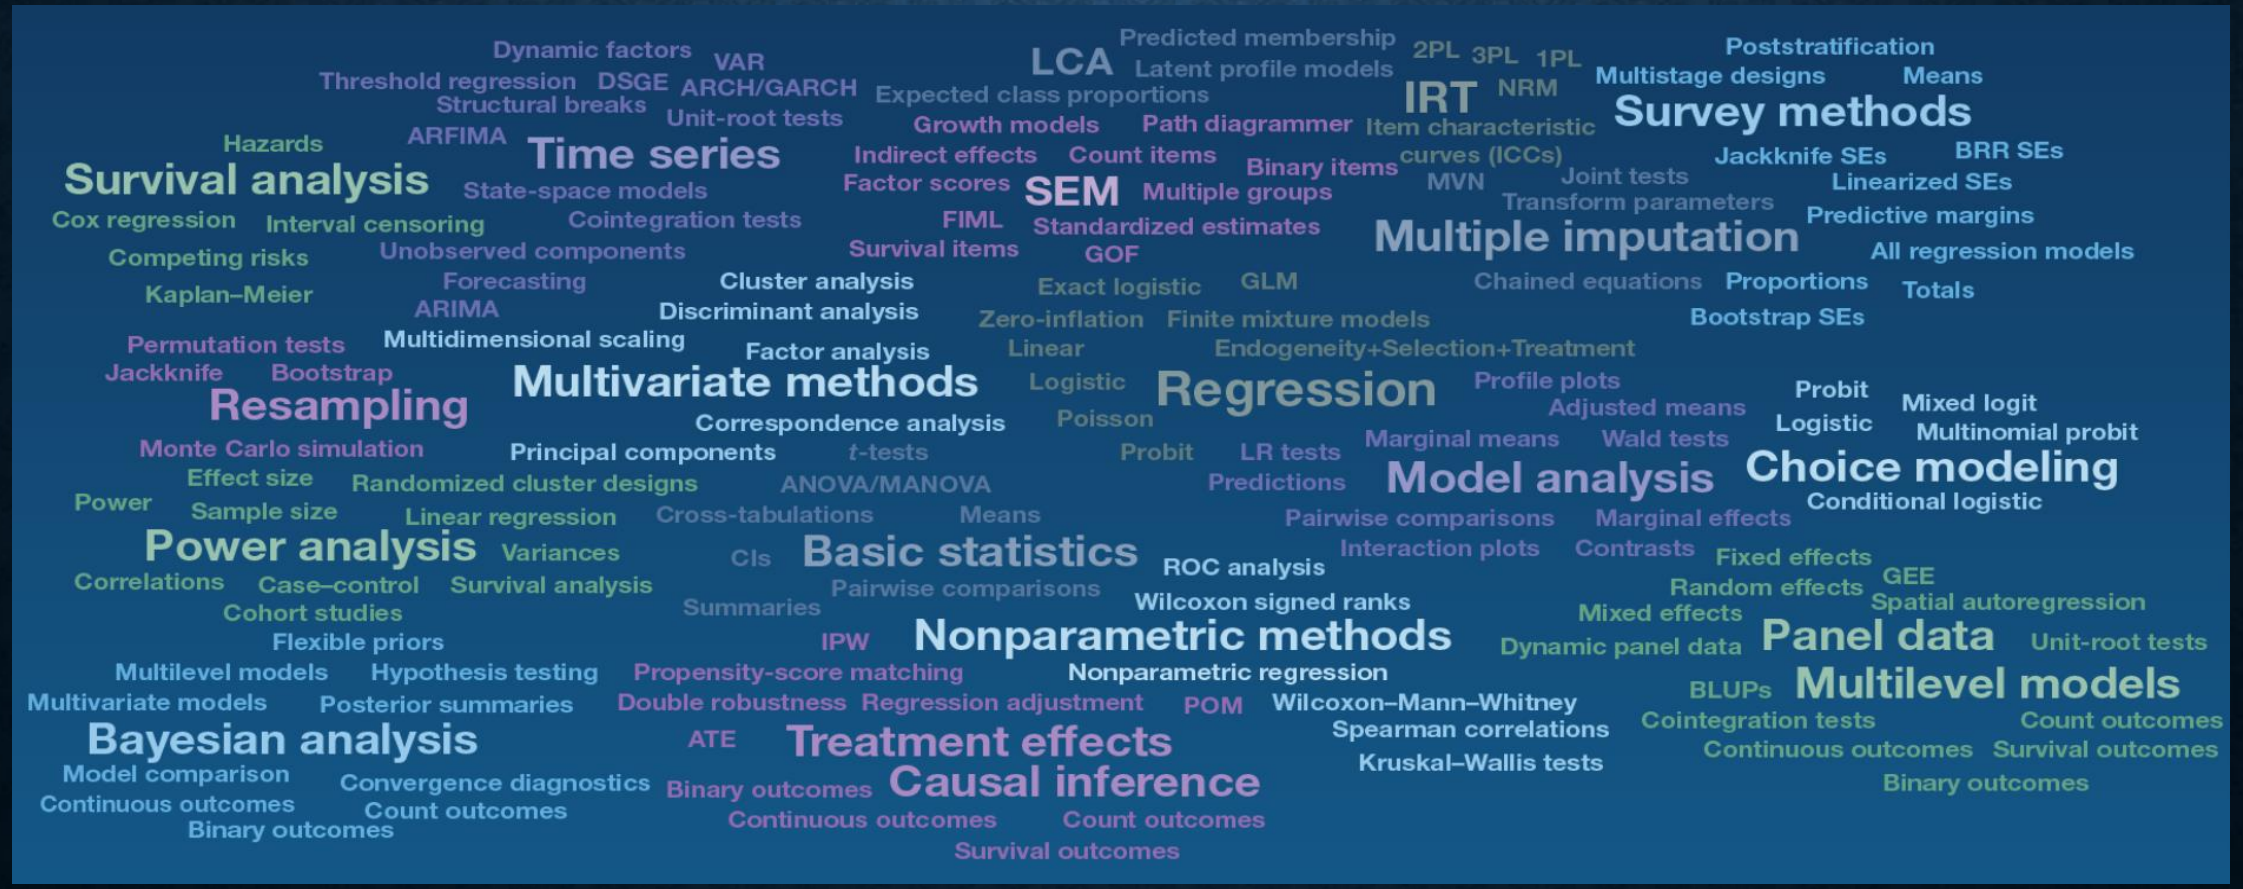

SOME ADVANTAGES OF STATA

- **Accuracy and reliability.**
  Stata is extensively and continually tested. Stata's tests produce approximately 4 million lines of output. Each of those lines is compared against known-to-be-accurate results across editions of Stata and every operating system Stata supports to ensure accuracy and reproducibility.

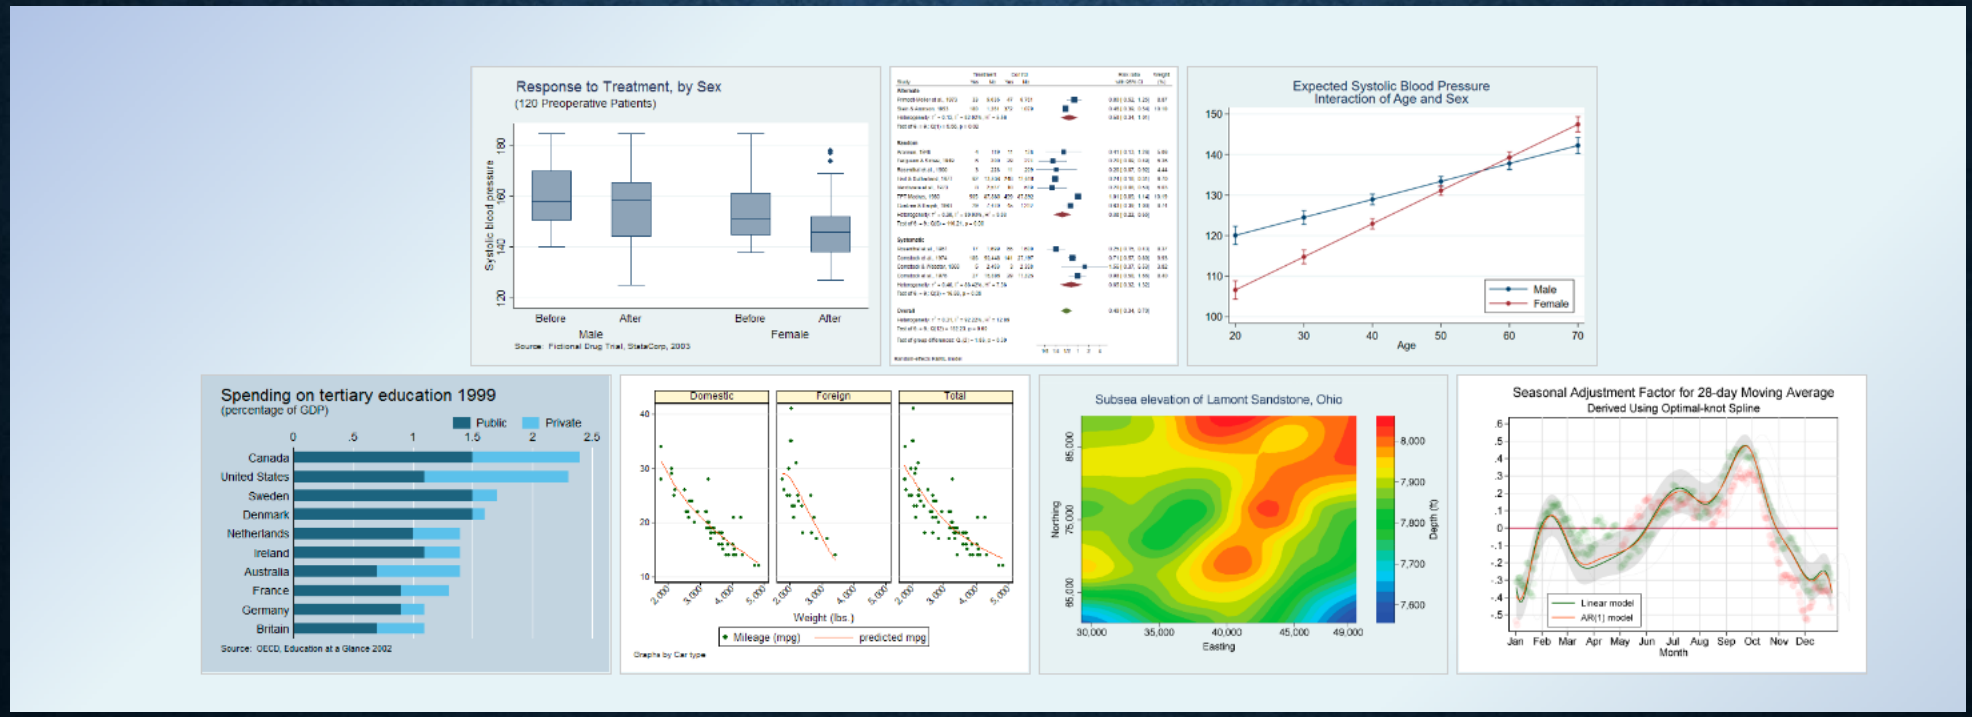

SOME ADVANTAGES OF STATA

- **Broad suite of statistical features**

SOME ADVANTAGES OF STATA

- **Publication-quality graphics**

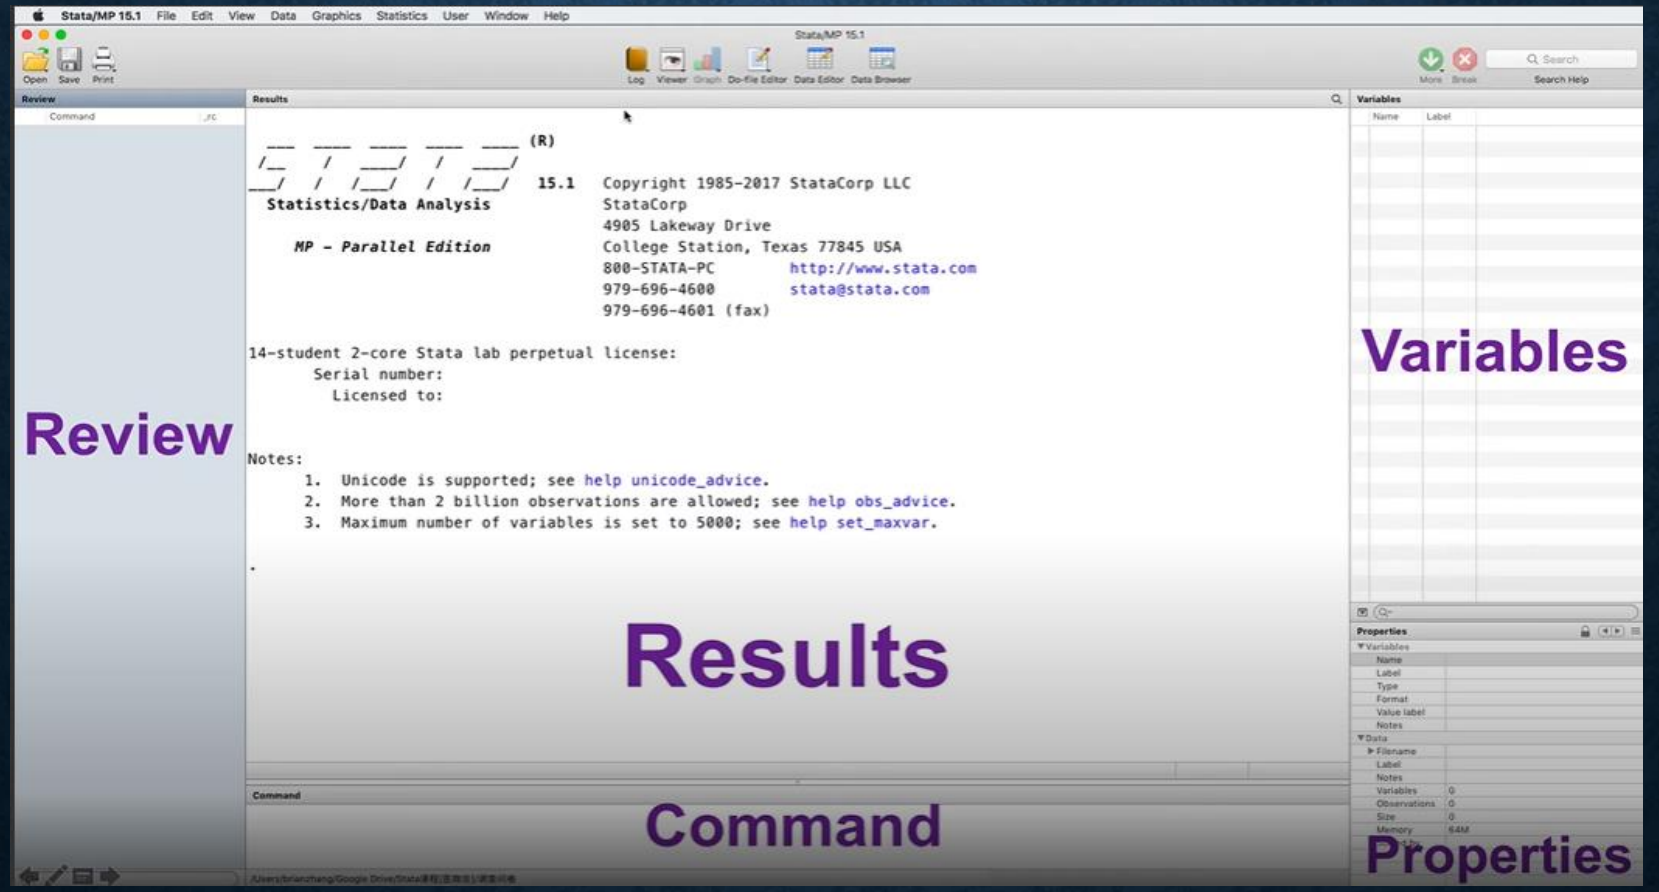

WHERE TO DOWNLOAD STATA

- STATA is available at the University computer lab (https://itso.cuhk.edu.cn/taxonomy/term/164)
- Or you can download it at (http://cuhko365.sharepoint.com/sites/swcenter)

  (Also, we have uploaded two files to guide you download STATA step-by-step)
- One good introduction can be found at (http://data.princeton.edu/stata/)
- STATA cheatsheets can be downloaded at (https://www.stata.com/bookstore/stata-cheat-sheets/)

BRIEF INTRODUCTION OF STATA INTERFACE

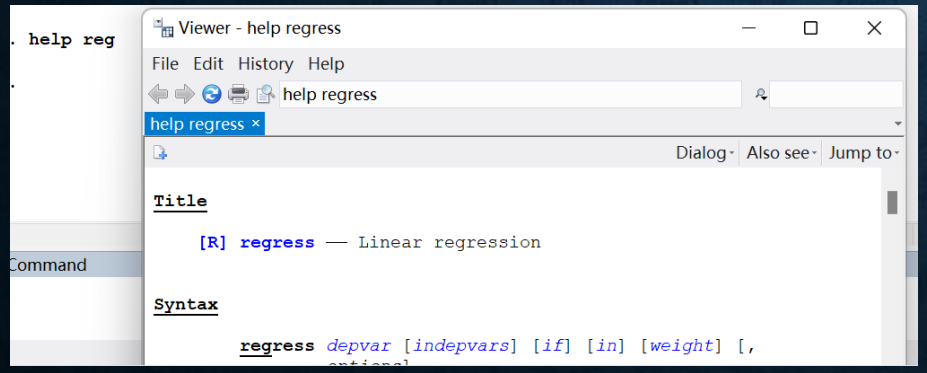

BRIEF INTRODUCTION OF STATA INTERFACE

- Create a log to capture history of work program
  log using 3121_tu1.log, replace
  log close

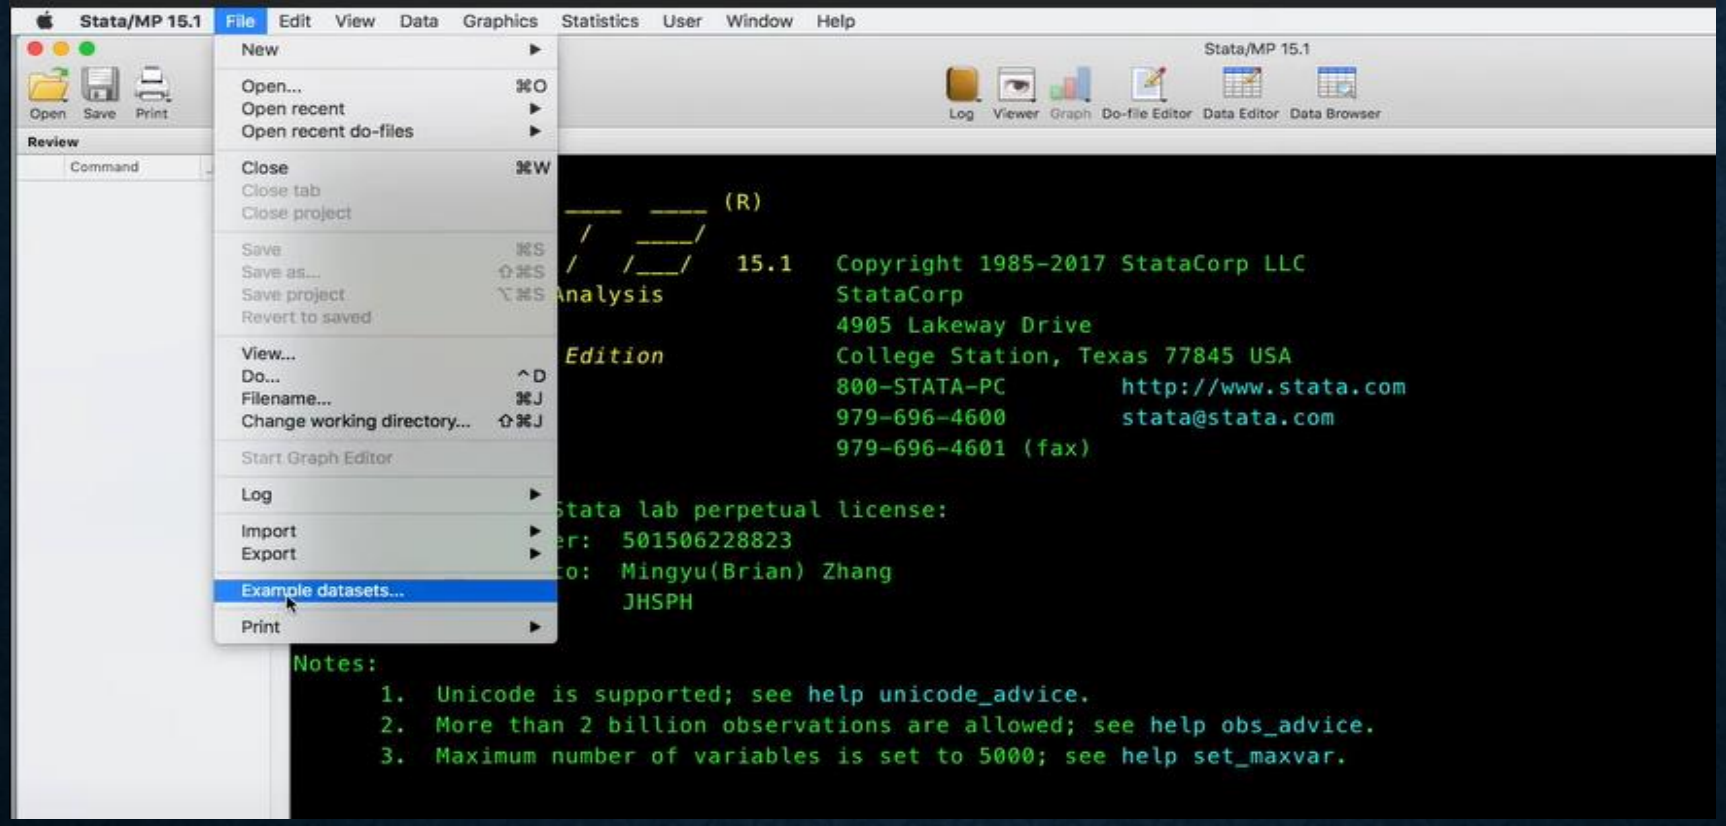

```
. log using 3121_tu1.log, replace
(note: file C:\Users\Teresa\Documents\3121_tu1.log not found)

      name:  <unnamed>
       log:  C:\Users\Teresa\Documents\3121_tu1.log
  log type:  text
 opened on:   6 Sep 2022, 22:32:47
```

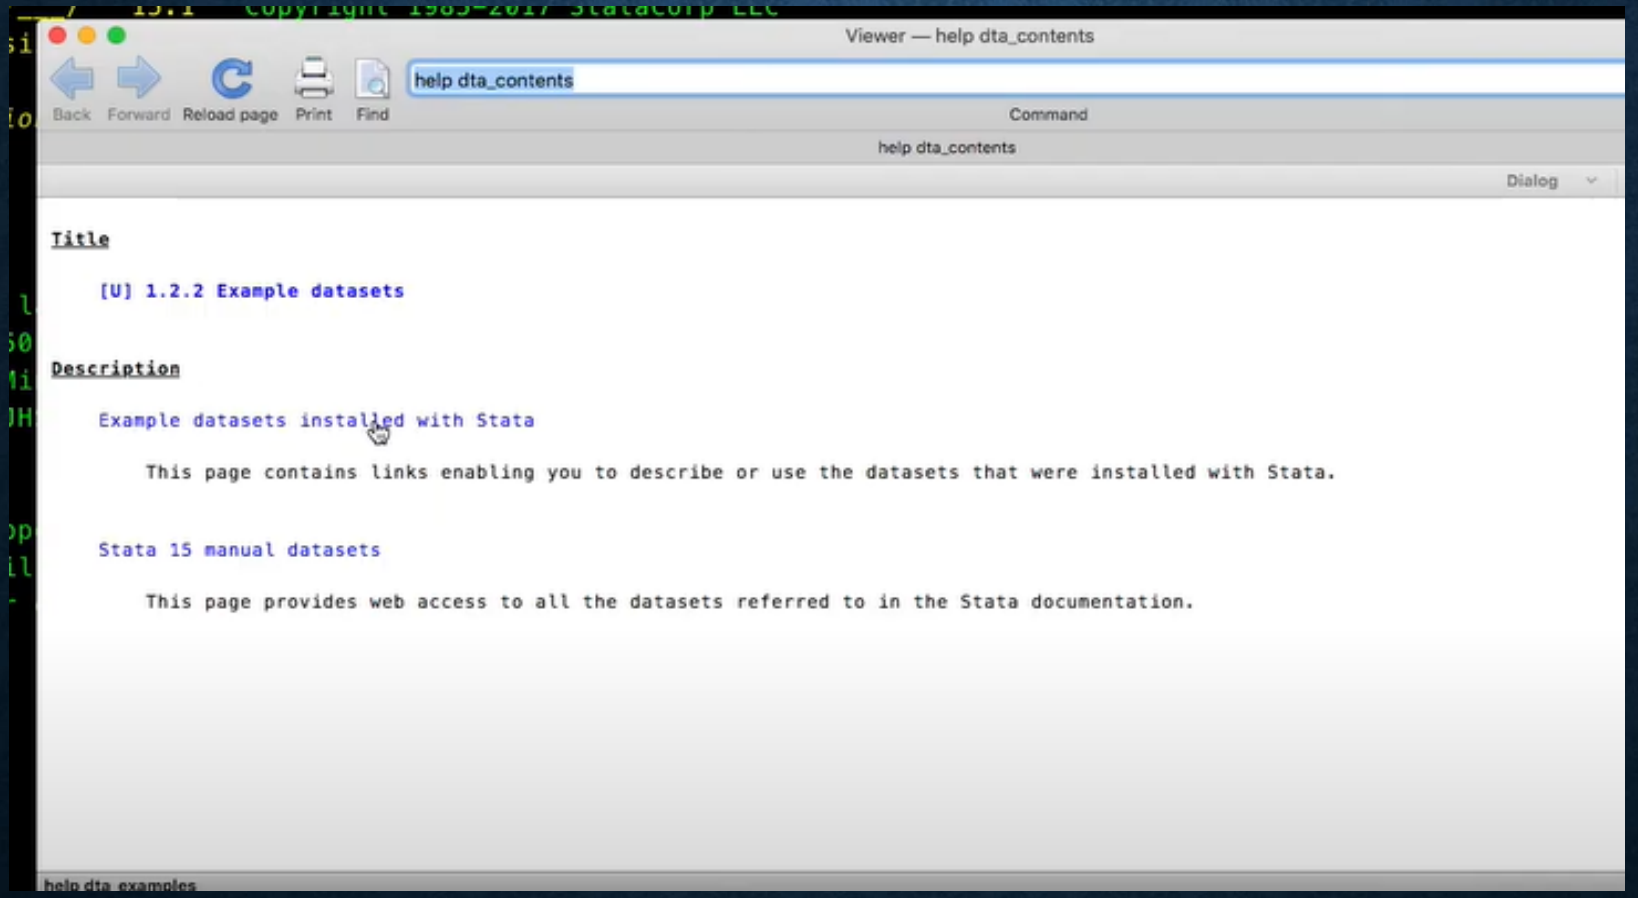

- **help command**

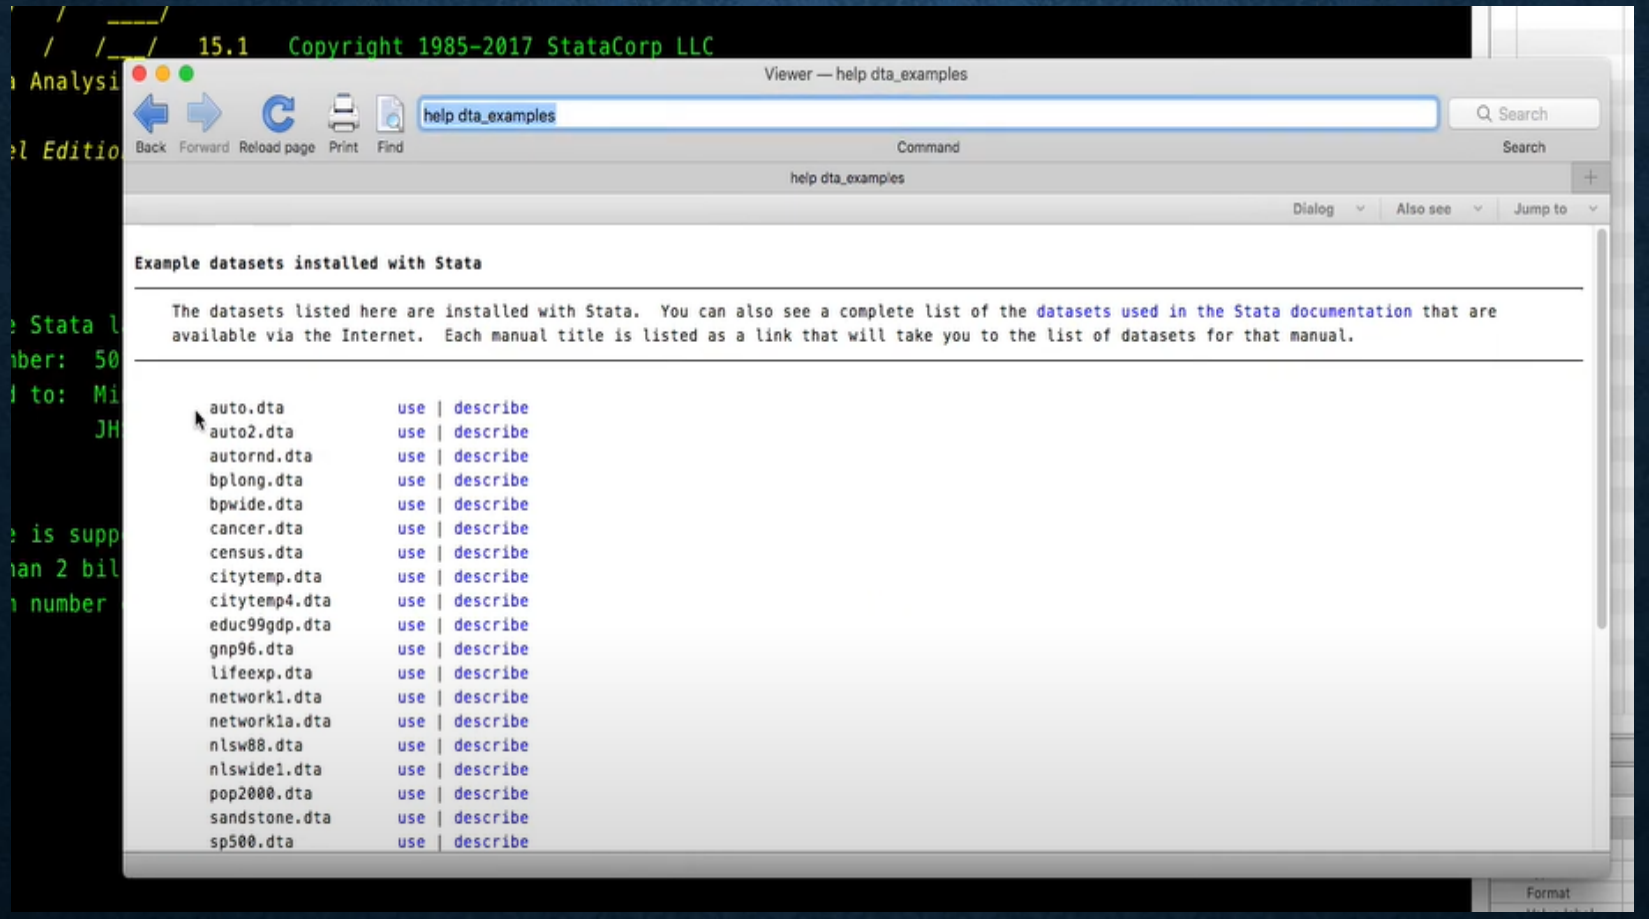

BRIEF INTRODUCTION OF STATA INTERFACE

STATA IMPORT DATA

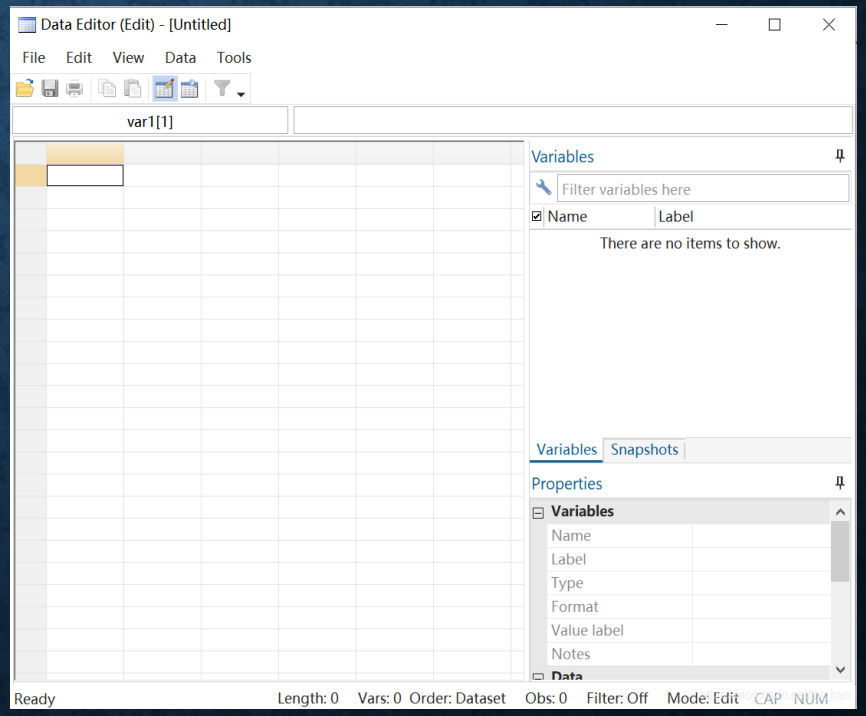

- Stata has three major ways to import data

1. Copy and paste
2. Import csv or excel file
3. Use dta file

1. COPY AND PASTE (ONLY APPLY TO SMALL SAMPLE SIZE)

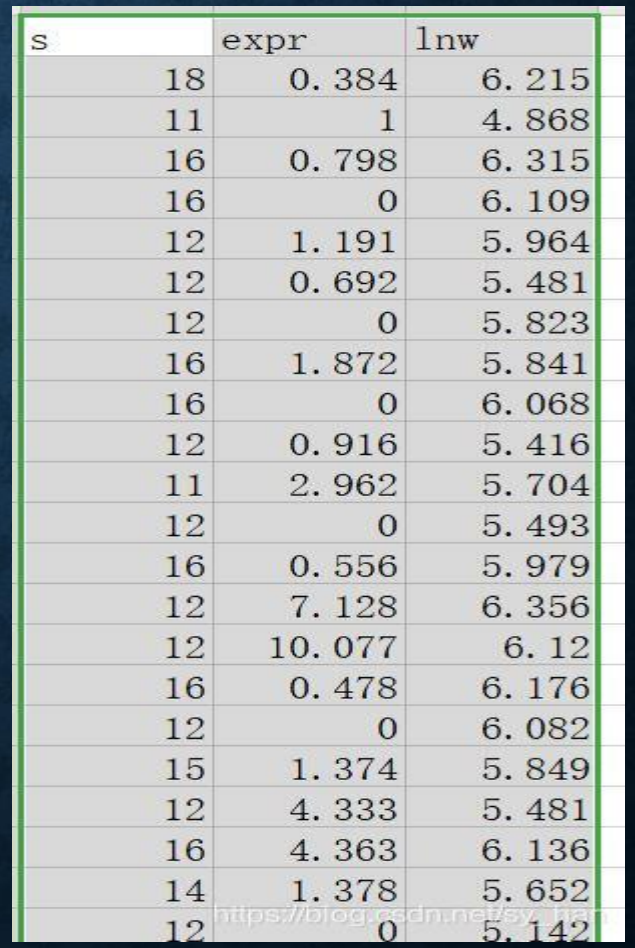

- 1. Click data Editor

1. COPY AND PASTE (ONLY APPLY TO SMALL SAMPLE SIZE)

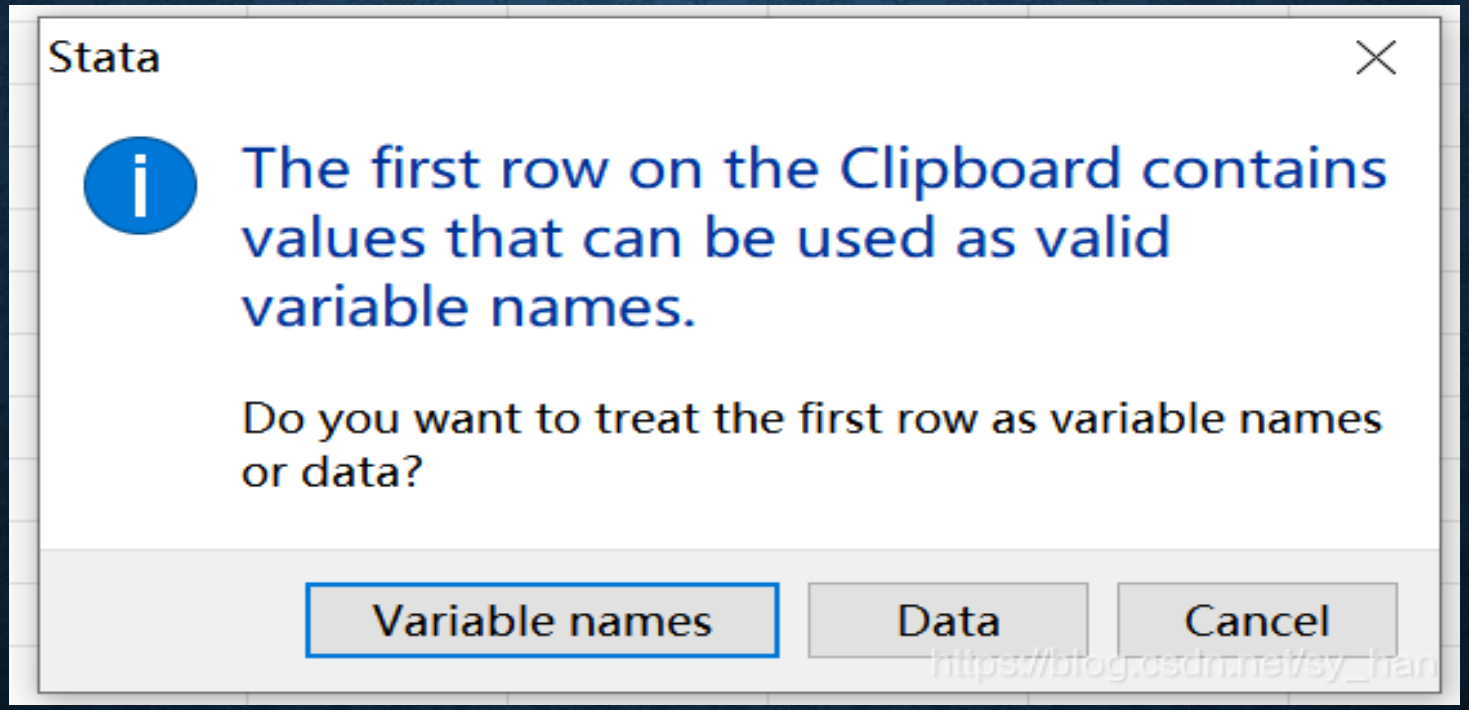

2. Open the dataset you want to import
3. Copy them all and paste them in the data editor.
4. You will see a notification 'Do you want to treat the first row as variable names or data?'
5. If you have already set variable names in the first row, choose variable names. Otherwise, choose data

s	expr	lnw
18	0.384	6.215
11	1	4.868
16	0.798	6.315
16	0	6.109
12	1.191	5.964
12	0.692	5.481
12	0	5.823
16	1.872	5.841
16	0	6.068
12	0.916	5.416
11	2.962	5.704
12	0	5.493
16	0.556	5.979
12	7.128	6.356
12	10.077	6.12
16	0.478	6.176
12	0	6.082
15	1.374	5.849
12	4.333	5.481
16	4.363	6.136
14	1.378	5.652
12	0	5.142

1. COPY AND PASTE (ONLY APPLY TO SMALL SAMPLE SIZE)

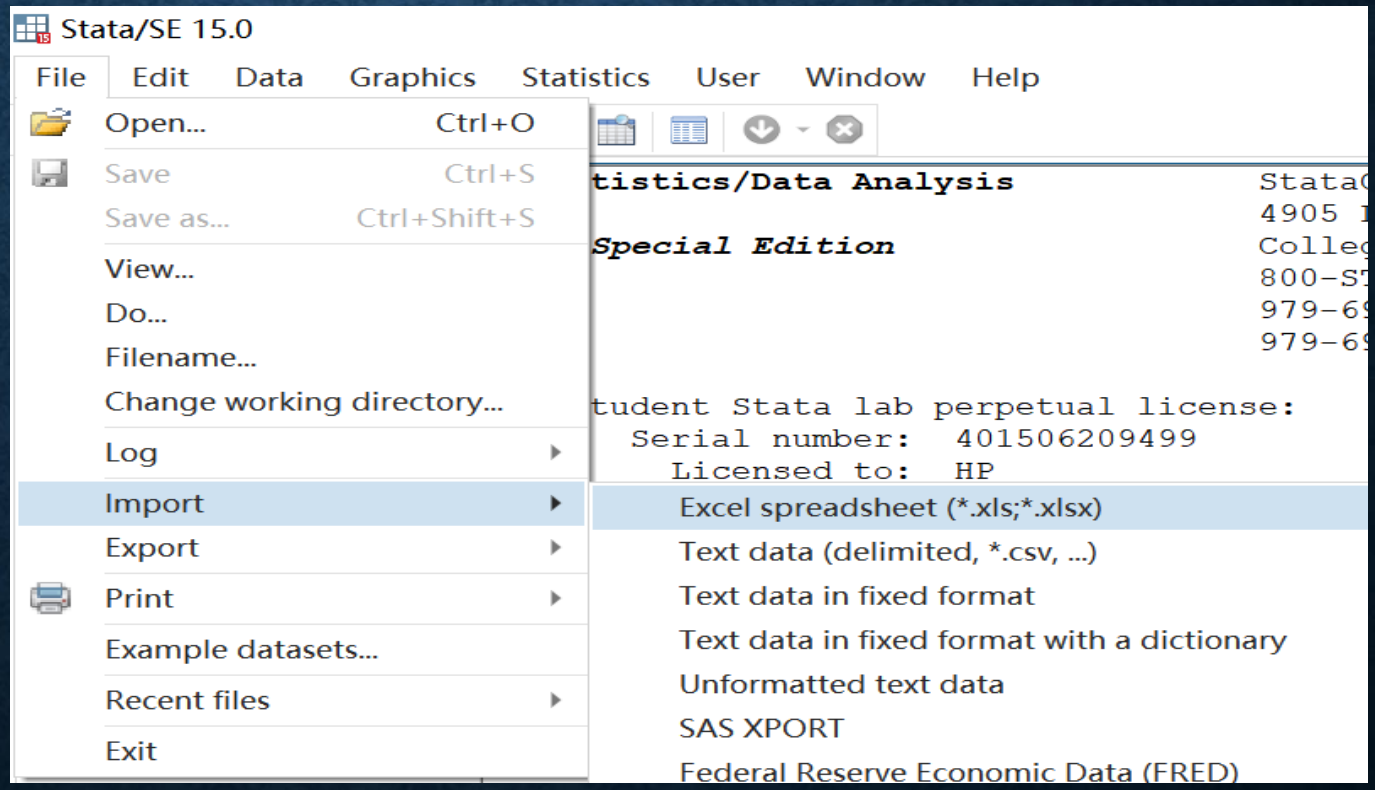

1. COPY AND PASTE (ONLY APPLY TO SMALL SAMPLE SIZE)

6. You can see your data in the data editor. If you want, you can also label your variables

2. IMPORT CSV OR EXCEL FILE

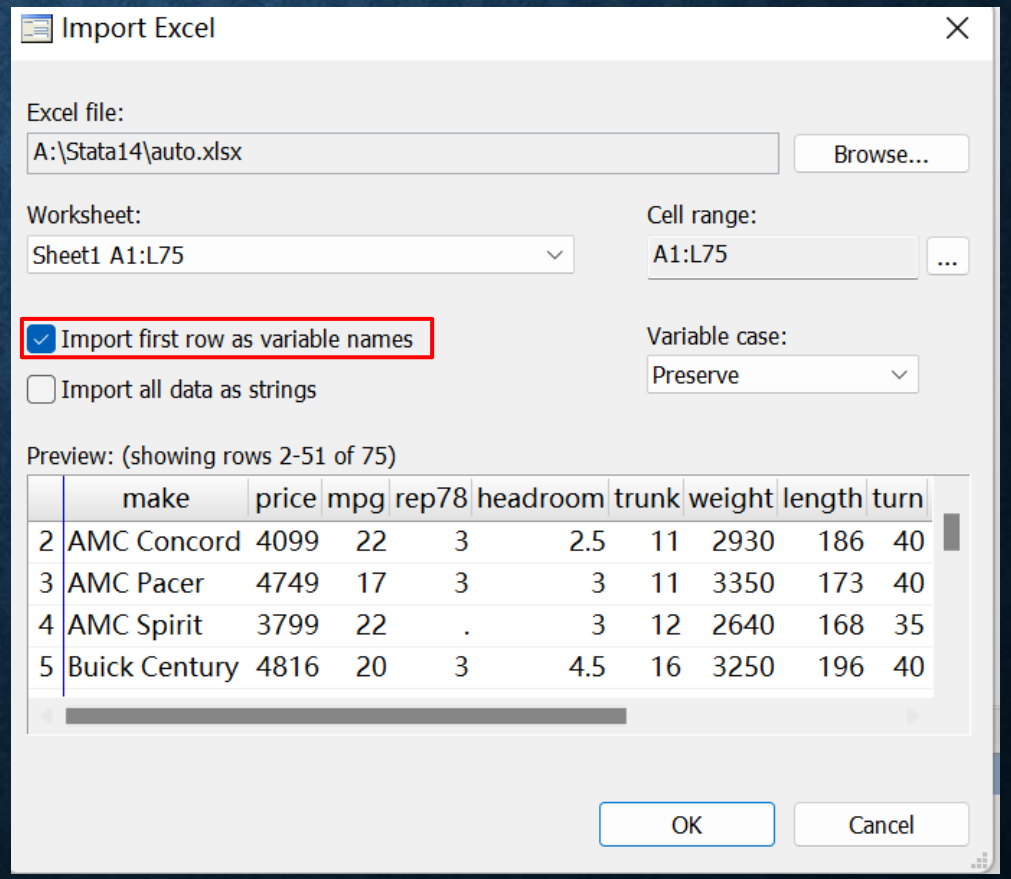

1. Click: “File”-“Import"-“Excel spreadsheet”

2. IMPORT CSV OR EXCEL FILE

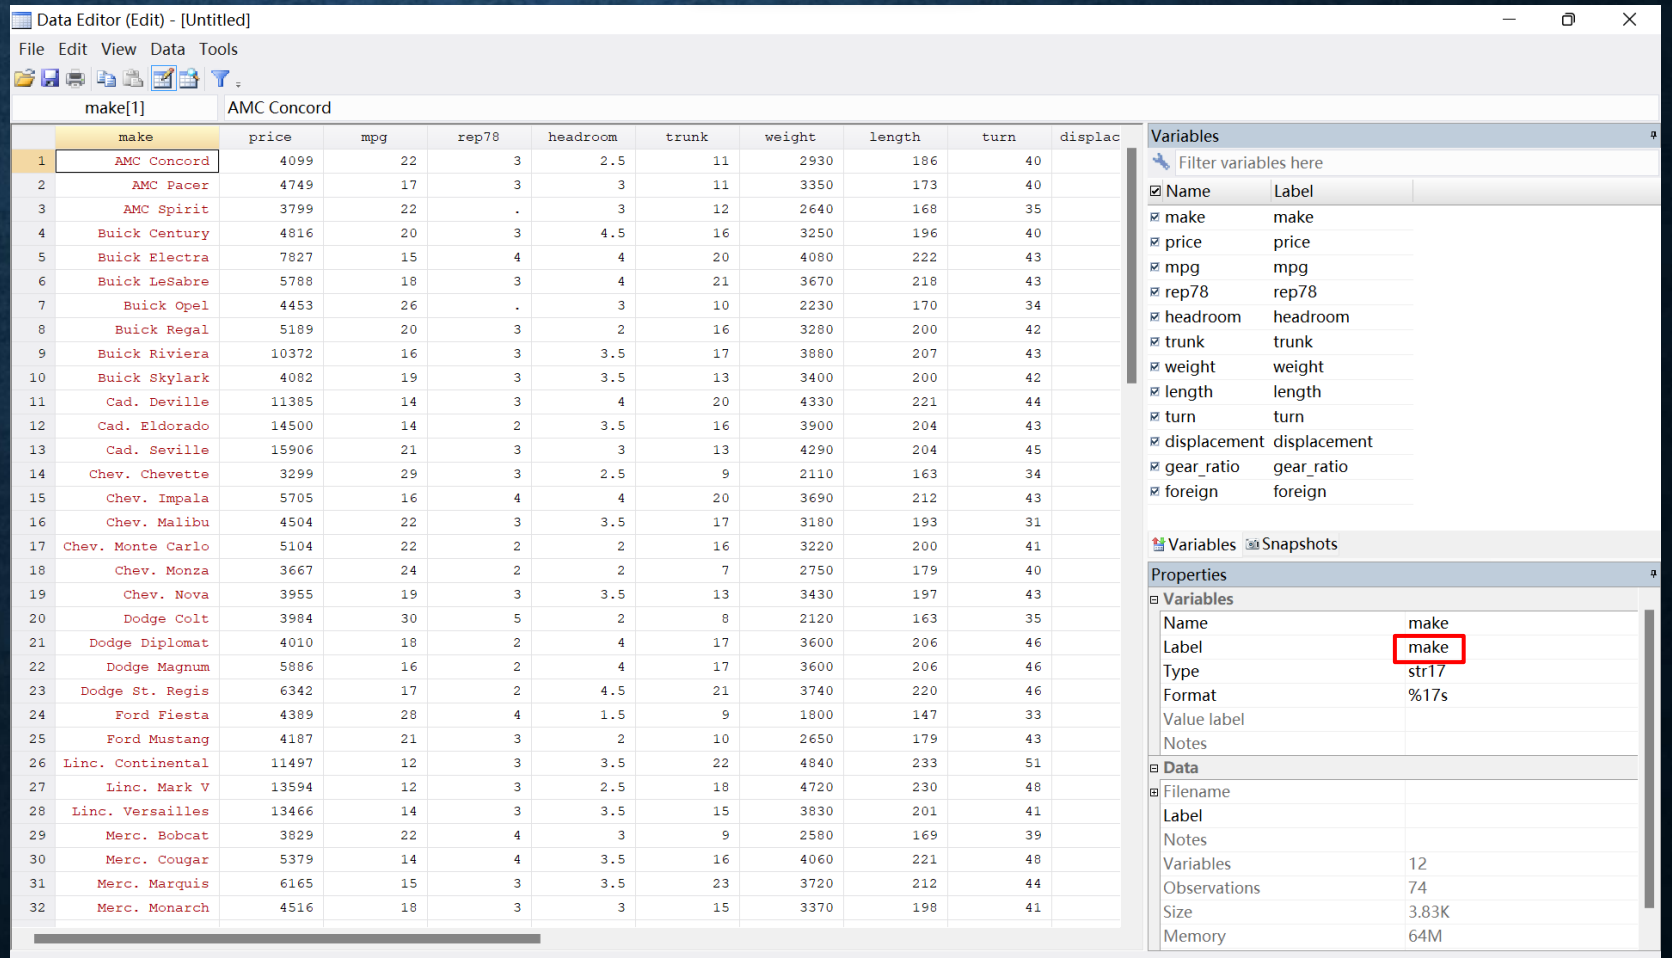

2. Click 'Browse' to choose the data file you want to import.

(**using auto.xls as an example**)

2. IMPORT CSV OR EXCEL FILE

3. You can see your data in the data editor. If you want, you can also label your variables

32	Merc. Monarch	4516	18	3	3	15	3370	198	41	

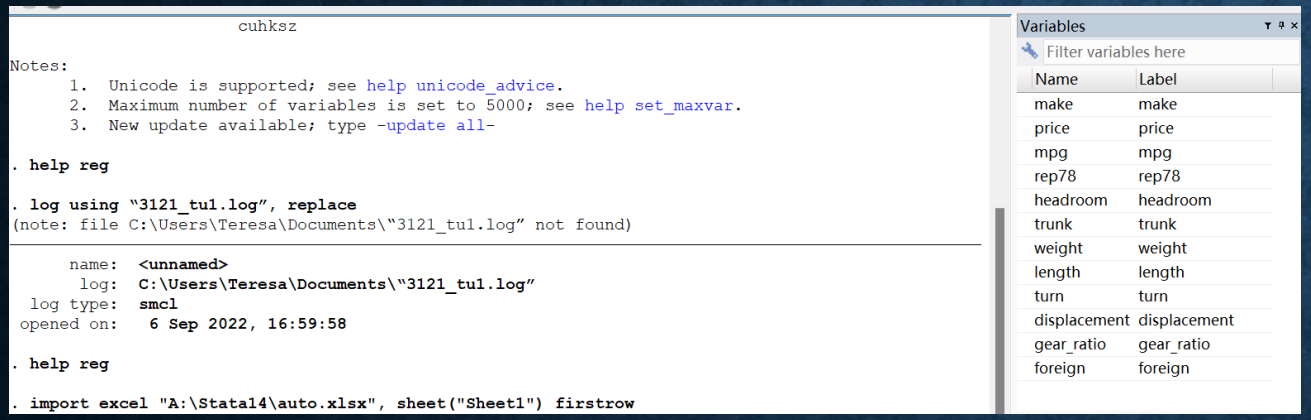

3. USE DTA FILE

1. You can choose to double click the dta file to open it in Stata or
2. You can choose to import it using coding "use the path to the file you are going to import"

   e.g. **use A:\Stata14\auto.dta**
3. Note: the coding is sensitive to capital letters in STATA (be careful about your file name)
4. Note: there is no 'undo' icon in STATA, if you want to delete your data you have just imported, you have to use coding to delete them all.

DELETE THE DATA YOU HAVE JUST IMPORTED

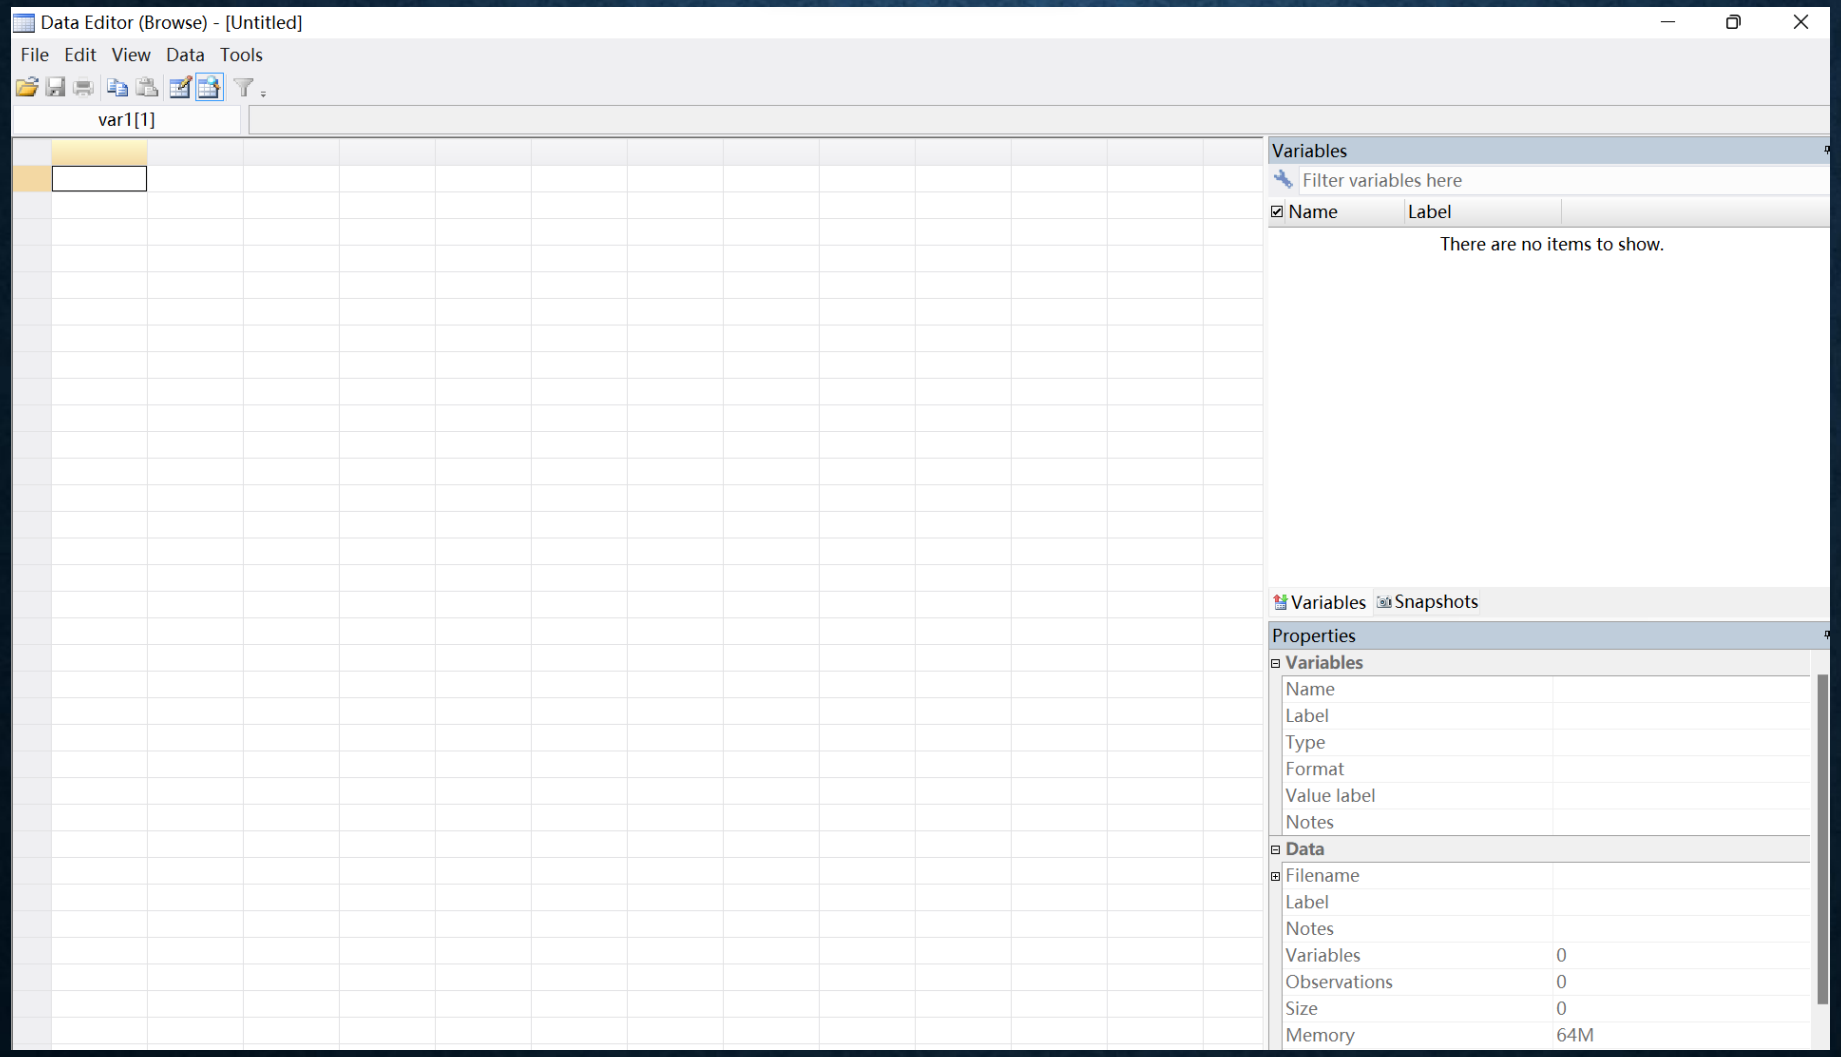

- Using the code "**clear**"

```
. clear
```

DELETE THE DATA YOU HAVE JUST IMPORTED

THAT IS ALL FOR TODAY, THANKS YOU ALL
